## About Us

**Connecticut Community Care, Inc. (CCCI)** is a private, non-profit organization that has been helping elders and individuals with disabilities to live at home for 30 years.

Our nurse and social services care managers help families through the Connecticut Home Care Programs (CHCP) for elders and adults with disabilities in the north central, northwest and eastern regions of the state. We also assist individuals who are returning to the community following nursing home care under the Money Follows the Person (MFP) program.

Our private-pay division, **Care Management Associates**, offers an array of services. Our personal assistants and certified nurse assistants work with our care managers to help clients with appointment scheduling and transportation, meal preparation, light housekeeping, money management, pet care assistance and more.

## Speakers Bureau Topics

CCCI leadership and care managers are available to speak to employees, support groups, church and civic groups on a variety of topics, including those listed. We can also customize a presentation to specifically meet your needs.
